	Year 20: 12 monthly payments of \$215	
	Total Monthly Lease Payments excluding tax = \$39,898.07 Estimated average monthly tax payments = \$14.13	

Total Payments. The amount you will have paid by the end of the Initial Term of the Agreement is \$43,289.41.

Purchase Option at End of Agreement Initial Term. At the end of the Initial Term you will have the option to purchase the Solar System for the greater of the fair market value (FMV) as determined at that time and the cash purchase price as set forth in Exhibit A. The FMV price does not include applicable taxes which may be charged on the purchase. Sunrun will determine the FMV of the Solar System by hiring an independent appraiser to estimate the value of a comparable in-service photovoltaic solar system in your state and Utility service area. This valuation will take into account the Solar System's age, location, size and other market characteristics such as equipment type, service costs, the value of electricity in your area, and any applicable Incentives.

Other Important Terms. Review your Agreement for additional information on early termination, purchase options and maintenance responsibilities, warranties, late and default charges, insurance, and any security interest, if applicable.

[†] The Initial Payment and Monthly Lease Payment amounts may change should the final Solar System design be smaller than the preliminary Solar System design. See Section E of the Agreement.
